INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Stormwater Authority of the City of Chester Chester, Pennsylvania

Opinion

We have audited the accompanying financial statements of the business-type activities of the Stormwater Authority of the City of Chester ("the Authority"), as of and for the years ended June 30, 2023 and 2022, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Authority, as of June 30, 2023 and 2022, and the respective changes in financial position, and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 7 and on pages 29 through 32 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Media, Pennsylvania February 13, 2025

This section of the annual financial report of the Stormwater Authority of the City of Chester, hereafter referred to as "Authority", presents management's analysis of the Authority's financial condition, changes in financial position, and cash flows for the year ended June 30, 2023.

The Stormwater Authority of the City of Chester is a municipal authority under the Commonwealth of Pennsylvania established by the City of Chester, Pennsylvania in October, 2016. The purpose of the Authority is to continue maintaining drainage and flood control facilities related to the operation of the infrastructure, as well as plan, fund, and construct improvements to the infrastructure within the Authority's boundaries.

Financial Highlights

The Authority's Board adopts its rates at an annual Board meeting. Based on the operating expenses, capital spending, and debt service, the budgeted fees are determined. Budgeted Operating Revenue is allocated to each parcel's square footage that may contribute to managing the stormwater runoff.

At the end of the fiscal year ending June 30, 2023, the total assets and deferred outflows increased \$299,149 to reflect total assets and deferred outflows of \$32,470,039. The total liabilities and deferred inflows increased \$294,564 to reflect total liabilities and deferred inflows of \$28,211,902. This resulted in an increase in Net Position of \$430,285 to reflect total Net Position of \$4,258,137.

Capital Assets and Construction in Progress spending during the fiscal year ended June 30, 2023, was \$2,131,999. Depreciation expense related to Capital Assets during this fiscal year was \$806,323 resulting in a net increase of \$1,325,676 of Capital Assets and Construction in Progress. The net total Capital Assets and Construction in Progress at year-end is \$30,438,014.

Operating revenues during the fiscal year were \$3,732,475 which is an 9% decrease compared to the prior year. Total operating revenues were 81% of the budget. Continuing efforts to increase cash inflows the Authority is actively engaged with a collection agency, representing approximately 3,800 parcels.

Operating expenses, excluding bad debt and depreciation expense for the year were \$2,588,316. This was an increase of \$90,995 or 4% increase over the prior year. Total operating expenses, excluding depreciation, were over budget by \$71,908 or 3%.

Non-operating income and expenses are not included in this analysis.

Overview of Annual Financial Statements

Management's Discussion and Analysis (MD&A) serves as an introduction to, and should be read in conjunction with, the independent auditor's report and the Authority's audited financial statements, as well as the notes related to the financial statements, which follow this section.

The annual report consists of three parts: the MDA, the financial statements, and related notes to the financial statements.

The financial statements report information about the Authority using full accrual accounting methods similar to those used by the private sector.

The financial statements include: Statement of Net Position; Statement of Revenues, Expenses and Changes in Net Position; Statement of Cash Flows; and the related Notes to Financial Statements along with required Supplemental information.

The Statement of Net Position presents the financial position of the Authority on a full accrual, historical cost basis. This statement present information on the Authority's assets and liabilities with the difference, or total assets in excess of total liabilities, reported as net position.

While the Statement of Net Position provide information about the nature and amount of resources and obligations at fiscal year end, the Statement of Revenues, Expenses and Changes in Net Position present the results of the business activities and the amount by which the net position changed at the end of the fiscal year. Changes in net position are reported as an underlying event giving rise to the changes occurring during the fiscal year, regardless of the timing of the related cash flows. These statements also provide certain information about the Authority's recovery of its capital costs.

The Statement of Cash Flows report changes in cash and cash equivalents resulting from; operating activities; capital and related financing activities; and investing activities. This statement presents cash receipts and cash disbursement information, without consideration of the earnings event; when an obligation arises; or depreciation of capital assets.

The Notes to Financial Statements provide required disclosures and other information that are essential to a full understanding of the financial data provided in the financial statements. The notes present information about the Authority's accounting policies, significant account balances and activities, material risks, obligations, commitments, contingencies and subsequent events, if any.

The Supplementary Information includes the Statement of Revenues, Expenses and Changes in Net Position compared to the Authority's approved operating budget.

The financial statements were prepared from the books and records of the Authority and audited annually by an independent external audit firm.

Summary of Organization and Business

Changes made to the Pennsylvania Municipal Authorities Act in 2013 allows for the formation of stormwater authorities to address stormwater-related issues through planning, management, and implementation of stormwater controls. In response to these changes, the Stormwater Authority of the City of Chester was formed to regulate discharges to the Municipal Separate Storm Sewer System (MS4) to protect the City of Chester and Delaware County's water bodies and groundwater and to safeguard the public health, safety, welfare and the environments. The Authority is a body created in October 2016 under the provisions of the PA Municipal Authority Act. The governing body of the Authority is a Board consisting of five members. The Board consists of a Chairperson, Vice-Chairperson, Secretary and Treasurer and such other Board members as the Officers deem necessary. The Board appointed an Executive Manager who shall have general and active management responsibility of the affairs of the Authority and shall jointly with the Chairperson executive all contracts of the Authority.

Financial Analysis

The following is a condensed statement of net position of the Authority on June 30, 2023 and 2022.

| | 2023 | 2022 |
|---|------------------|------------------|
| Assets and Deferred Outflows of Resources: | | |
| Current assets | \$ 1,729,663 | \$ 2,896,343 |
| Capital assets | 12,976,871 | 13,064,616 |
| Construction in progress | 17,461,143 | 16,047,722 |
| Other assets | 61,029 | - |
| Total Assets | 32,228,706 | 32,008,681 |
| Deferred Outflows of Resources | 241,333 | 162,209 |
| Total Assets and Deferred Outflows of Resources | \$ 32,470,039 | \$ 32,170,890 |
| Liabilities: | | |
| Short-term liabilities | \$ 1,866,912 | \$ 3,837,330 |
| Long-term liabilities | 26,317,572 | 24,494,555 |
| Total Liabilities | 28,184,484 | 28,331,885 |
| Deferred Inflows of Resources | 27,418 | 11,153 |
| Net Position: | | |
| Invested in capital assets | 2,716,957 | 1,507,774 |
| Restricted | 1,541,180 | 2,320,078 |
| Total Net Position | 4,258,137 | 3,827,852 |
| Total Liabilities, Deferred Inflows of | | |
| Resources and Net Position | \$ 32,470,039 | \$ 32,170,890 |

At June 30, 2023, the Authority's current assets are comprised of; cash in banks of \$268,547 and accounts receivable net of doubtful accounts of \$1,420,907. Prepaid expense of \$40,209 represents the remaining amount of current assets. The capital assets are comprised of; infrastructure, construction in progress, buildings, equipment and vehicles, net of accumulated depreciation of \$4,315,121, represents \$30,438,014. Two construction projects are presently in progress and another project had begun in the following fiscal year. All associated costs of construction in progress are capitalized and upon completion added as additions to infrastructure and began depreciation. Depreciable infrastructure cost recovery reflected in statement of activity is based on recovery of costs over the next twenty-five years once placed in service.

The Authority's short-term liabilities of \$1,866,912 are comprised of; accrued costs related to construction and operating expenses of \$797,918 and the current portion of Pennvest long term debt of \$1,057,201. The long-term liabilities of \$26,317,572 include the net pension liability of \$179,956, and \$26,088,824 representing long-term portion of Pennvest debt. Each Pennvest loan funds a separate construction project of which there were five existing projects with three completed in the past year and two in construction status. Additionally, after this fiscal year end, a sixth project began from approved funding from Pennvest, in the form of a grant, more than \$9,900,000. Under the terms of each loan from Pennvest, no principal payments are required on the loans for up to 36 months beginning at the loan origination date, but interest is due on any amounts borrowed from the approved amounts.

The following is a condensed statement of revenues, expenses, and changes in net position for the Authority for the years ended June 30, 2023 and 2022.

| | 2023 | 2022 |
|---|-----------------|-----------------|
| Operating Revenues: | | |
| Storm drainage utility fees | \$ 3,732,475 | \$ 4,098,891 |
| Total Operating Revenues | 3,732,475 | 4,098,891 |
| Operating Expenses: | | |
| Expenses except depreciation | 2,834,508 | 4,199,006 |
| Depreciation | 806,323 | 653,205 |
| Total Operating Expenses | 3,640,831 | 4,852,211 |
| Other Nonoperating Revenue | | |
| Refund for prior year expenditures | 120,000 | 1,506,140 |
| Interest income | 1,155 | 446 |
| Rental income | 23,836 | 12,947 |
| Miscellaneous income - collection of placement fees | 34,691 | - |
| Contributed infrastructure- change in accounting estimate | 425,700 | |
| Total Nonoperating Revenue | 605,382 | 1,519,533 |
| Other Nonoperating Expense | | |
| Interest expense | (266,741) | (249, 136) |
| Change in Net Position | 430,285 | 517,077 |
| Net Position - Beginning | 3,827,852 | 3,310,775 |
| Net Position - Ending | \$ 4,258,137 | \$ 3,827,852 |

The Authority was created by the City of Chester to establish a Stormwater Authority to manage, maintain and improve existing infrastructure and to transfer the City's infrastructure to the Stormwater Authority.

During this fiscal year ended, two projects remain in progress with another anticipated project to begin and funded by a Pennvest grant. During this fiscal year, the Authority was servicing debt on three Pennvest loans associated to three completed projects.

Economic Factors and Next Year's Budget and Rates

The Stormwater Authority of the City of Chester continues to focus and invest on improving the stormwater management and enhancing the infrastructure. The Authority's goal is to enable the stormwater to efficiently manage water runoff and reduce contaminants from entering the region's freshwater system. Three projects have been completed, with another two nearing completion, and a sixth project in the beginning phases of progress.

The Authority was awarded a \$9.9 million dollar grant in the following month after this year ended in July 2023. From this grant, project #6 at the time of release of these financial statements has begun with more improvement to the infrastructure and redirect the flow of stormwater away from a wastewater treatment plant.

The annual budget developed for the following year has presented a significant increase to close a gap existing with the operating expenses of the Authority and matching operating income. Delinquencies associated with non-payment from residence was considered in determining a fee structure enabling the Authority to properly maintain the infrastructure's operations. The additional consideration was based on analysis of historical trends of collections compared to invoiced amounts, and other considerations. The budgeted expenses represent anticipated costs of operating expenses, capital expenditures and debt service. These uncertain times requires review of project costs increases caused by the present economic conditions. Actual costs of operations include adjustments to accounts receivable for Bad debt allowance and Depreciation which are considered noncash amounts and were considered part of the budget.

This report is designed to provide a general overview of the Authority's finances for all interested parties. Questions concerning any of the information provided or requests for additional information should be addressed to the Director of Finance and Administration at:

NOTE 1: NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Stormwater Authority of the City of Chester ("the Authority") was incorporated on October 28th of 2016. The Authority, under the provisions of the Municipal Authorities Act, will enhance, protect and safeguard the water bodies and groundwater and improve the public health and safety within the Authority's boundaries.

Reporting Entity

The Authority is a separate governmental entity. The Authority's board of directors includes City of Chester council members and directors along with two board members of the Chester Water Authority.

The Authority was established to maintain, repair and improve the existing infrastructure, and design and develop an infrastructure separate from the existing wastewater infrastructure, which the Authority is presently part of. The Authority took legal possession of the stormwater infrastructure in September 2018. Work began on improving the infrastructure prior to receiving legal ownership from grants and loans. Funding for repairs and improvements to the infrastructure presently consists of five active projects in place as of June 30, 2023, and an anticipated sixth project to begin in the next fiscal year.

The Authority follows Governmental Accounting Standards Board ("GASB") accounting pronouncements which provide guidance for determining which governmental activities are to be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of the government governing body. Financial accountability includes, but is not limited to, the appointment of a majority of the organization's governing body, who has the ability to impose its will on the organization.

The Authority is not financially accountable for any other organization, nor is the Authority a component unit of any other primary governmental entity.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The Authority's financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The Authority adheres to the provisions of GASB Statement No. 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments" and GASB Statement No. 38, "Certain Financial Statement Note Disclosure". GASB No. 34 established standards for external financial reporting for certain state and local governmental entities, which includes a statement of net position; a statement of revenues, expenses and change in net position; and a statement of cash flows. It requires the classification of net position into three components: net investment in capital assets, net of related debt; restricted; and unrestricted net position.

NOTE 1: NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Budgets and Budgetary Accounting

The Authority's management prepares the Authority's operating budget. The Authority's Director submits a proposed operating budget to its Board of Directors before the beginning of the fiscal year. The Board adopts the budget and passes the appropriation resolution. After commencement of the fiscal year, the appropriation is irrepealable. However, the Board may adopt supplemental appropriations by resolution due to circumstances which could not be foreseen at the time of the adoption of the original budget. The budget lapses at the end of each year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Statement of Cash Flows

For purposes of the statement of cash flows, the Authority considers highly liquid investments with a maturity of three months or less when acquired to be cash equivalents.

Accounts Receivables

Accounts receivables are expressed net of allowances for bad debts. The Authority has established an allowance for bad debts, as of June 30, 2023 and 2022, in the amounts of \$3,550,724 and \$3,700,000, respectively. The allowance is determined based on collection rates and management's analysis of specific accounts. The Authority is working with a collection agency to pursue delinquent accounts and file liens on properties with delinquent balances. As of the date of the financial statements, collections from delinquent accounts managed by the collection agency have resulted in 15% collections of the assigned accounts.

NOTE 1: NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Capital Assets

Capital assets, which include infrastructure, property, and equipment, are reported in the financial statements. Capital assets are defined by the Authority as assets with an estimated useful life greater than one year. The Authority has set a threshold of \$1,500 in determining expenditures to be capitalized and depreciated over a useful life as follows:

Infrastructure25 yearsBuildings30 yearsOffice furniture and fixtures7 yearsVehicles5 years

Certain capital expenditures related to construction in progress of the infrastructure ("CIP") are not depreciated. When construction projects are complete, the project cost is transferred to the infrastructure account and depreciation of the capital cost begins. On September 12, 2018, the mayor of the City of Chester transferred the infrastructure assets they maintained over to the Stormwater Authority of the City of Chester to continue maintaining and to seek funding for improving the infrastructure. These assets are continuing to be depreciated over their remaining useful lives.

Expenditures for maintenance, repairs and minor replacements, which do not improve or extend the life of the asset, are expensed as incurred.

Compensated Absences

The Authority's policy is to accrue an expense and liability for earned, unpaid employee vacation, sick leave, and compensatory time. \$30,202 and \$38,693 have been accrued for compensated absences and included in accrued payroll and taxes at June 30, 2023 and 2022, respectively.

Net Position

Net position comprises the various net earnings from operating income, nonoperating revenues and expenses, and capital contributions. Net position is classified in the following components:

Net investment in capital assets - This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any borrowings that are attributed to the acquisition, construction or improvement of those assets.

Restricted - This component of net position consists of constraints imposed by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law.

Unrestricted - This component of net position consists of net position that does not meet the definition of net investment in capital assets, or restricted.

NOTE 1: NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period or periods and so will not be recognized as an outflow of resources (expense/expenditure) until that time.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period or periods and so will not be recognized as an inflow of resources (revenues) until that time.

New Accounting Pronouncements

The GASB issued Statement No. 96, Subscription-Based Information Technology Arrangements. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for subscription-based information technology arrangements (SBITAs) by governments. This Statement increases usefulness of governments' financial statements by requiring recognition of certain SBITA assets and liabilities for the arrangements that were previously classified as operating leases and recognized as inflows of resources or outflows of resources. Under this Statement, a user of the SBITA is required to recognize a SBITA liability and an intangible right-to-use SBITA asset, thereby enhancing the relevance and consistency of information about governments' SBITA's activities. The Statement is effective for reporting periods beginning after June 15, 2022. The Authority adopted the Statement effective July 1, 2022. The adoption of the Statement did not have a material impact on the Authority's results of operations or cash flows, it primarily resulted in enhanced disclosures.

NOTE 2: CREDIT RISK

Custodial Credit Risk

Cash of the Authority may be exposed to custodial credit risk for amounts in excess of the federal depository insurance amount of \$250,000 per bank. At June 30, 2023, bank account balances were not in excess of \$250,000.

NOTE 3: CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2023 was as follows:

| | Balance July 1, 2022 | Increases | Decreases | Balance June 30, 2023 |
|---------------------------------------|----------------------------|--------------|-----------|-----------------------------|
| Capital assets not being depreciated: | | | | |
| Land | \$ 89,516 | \$ 180,312 | \$ - | \$ 269,828 |
| Construction-in-progress | 16,047,722 | 1,413,421 | | 17,461,143 |
| Capital Assets Not Being Depreciated | 16,137,238 | 1,593,733 | _ | 17,730,971 |
| Capital assets being depreciated: | | | | |
| Buildings | 1,486,982 | 327,497 | - | 1,814,479 |
| Infrastructure | 14,047,292 | - | - | 14,047,292 |
| Vehicles, Equipment and Furniture | 949,624 | 210,769 | | 1,160,393 |
| Capital Assets Being Depreciated | 16,483,898 | 538,266 | - | 17,022,164 |
| Less accumulated depreciation | (3,508,798) | (806,323) | _ | (4,315,121) |
| Net Capital Assets Being Depreciated | 12,975,100 | (268,057) | - | 12,707,043 |
| Net Capital Assets | \$ 29,112,338 | \$ 1,325,676 | \$ - | \$ 30,438,014 |

NOTE 4: DEBT

There are five Pennvest loans (Pennsylvania Infrastructure Investment Authority) bearing interest at a rate of 1.0%, which represent funding for individual infrastructure projects. The approved amount of each loan is listed below. The proceeds of each Pennvest loan during this fiscal year and beyond are disbursed periodically based on reimbursing costs incurred during the construction and completion of each project. The Authority's future planning and related capital spending on infrastructure continues to utilize the loan proceeds. The loan amounts provided to the Authority from Pennvest are listed below. Each project is individually accounted for.

The terms of each loan allow the Authority to pay interest only, at rate of 1%, for up to 36 months. After that time, principal and interest payments begin on the existing loans. Principal payments began during 2021. The loans are amortized over 20 years with maturity dates in 2041, 2042 and 2043, relative to each loan's origination date.

NOTE 4: DEBT (continued)

| | Balance July 1, 2022 | Borrowings | Repayments | Balance June 30, 2023 |
|---|----------------------------|--------------|----------------|-----------------------------|
| Pennvest - \$4,888,205 - Tranche #1 Pennvest - \$4,822,315 - Tranche #2 Pennvest - \$3,447,464 - Tranche #3 Pennvest - \$9,980,156 - Tranche #4 | \$ 4,116,703 | \$ 25,871 | \$ (206,881) | \$ 3,935,693 |
| | 3,609,952 | - | (196,382) | 3,413,570 |
| | 2,819,607 | 16,966 | (143,015) | 2,693,558 |
| | 7,695,663 | 1,178,284 | (311,827) | 8,562,120 |
| Pennvest - \$9,946,801 - Tranche #5 | 6,753,530 | 1,941,866 | (154,312) | 8,541,084 |
| | \$ 24,995,455 | \$ 3,162,987 | \$ (1,012,417) | \$ 27,146,025 |

The principal and interest payments on the individual loans for the future are as follows. Each Pennvest loan represents a separate project. The Authority is working towards improving the management of water runoff issues that have existed for many years. Future principal and interest payments are based on amounts borrowed as of the financial statement date. An additional \$552,412 was borrowed from approved loan proceeds after the fiscal year ended, related to Pennvest loan Tranche #5. This increases future debt service relative to the loan. See subsequent events, Note 9, for additional information.

Future principal payments are as follows:

| For the Years | | | | | | | | | | | |
|-----------------|----|------------|----|------------|----|------------|----|------------|----|------------|------------------|
| Ending June 30: | P | ennvest #1 | P | ennvest #2 | Р | ennvest #3 | Р | ennvest #4 | Р | ennvest #5 | Total |
| | | | | | | | | | | | |
| 2024 | \$ | 147,977 | \$ | 132,313 | \$ | 100,780 | \$ | 350,091 | \$ | 326,040 | \$ 1,057,201 |
| 2025 | | 199,054 | | 177,968 | | 135,554 | | 470,811 | | 422,990 | 1,406,377 |

NOTE 5: DEFERRED REVENUE/CHANGE IN ACCOUNTING ESTIMATE

On September 12, 2018, after a resolution signed by the mayor of the City of Chester, the stormwater infrastructure owned and maintained by the City was transferred to the Authority. The value received, was determined as the remaining depreciable value per the City's records, was being realized as annual revenue by the Authority over a 15-year period beginning on September 12, 2018.

During fiscal year ended June 30, 2023, due to a change in accounting estimate, management determined there was no basis to continue to carry and amortize the Deferred revenue. The \$425.700 balance of Deferred revenue has been recharacterized as Contributed Infrastructure on the Statement of Revenue, Expenses and Changes in Net Position as Non-Operating income.

NOTE 6: COMMITMENTS

The Authority enters into agreements with various contractors to complete open construction in progress projects. As of June 30, 2023, the Authority had no outstanding commitments to contractors. As of June 30, 2022, the balance to finish, including retainage, on these agreements was approximately \$3,720,000.

NOTE 7: PENSION PLAN

Plan Description

The Stormwater Authority of the City of Chester Non-Uniform Defined Benefit Plan is a singleemployer contributory defined benefit pension plan controlled by provisions of Resolution No. 2013-2 adopted pursuant to Act 15 of 1974. The plan participates in the Pennsylvania Municipal Retirement System (PMRS), which is an agent multi-employer public employee retirement system that acts as a common investment and administrative agent for participating municipal pension plans. PMRS issues a separate Comprehensive Annual Financial Report (CAFR). The CAFR is available on the publications page of the PMRS website at www.pmrs.state.pa.us, or a copy can be obtained by contact the PMRS accounting office at 717-787-2065. The most recent actuarial valuation date is January 1, 2023. The following table provides information concerning the Authority's pension plan as of December 31, 2022 (the most recent actuarial valuation date of the plan):

Covered employees All full-time employees

Total annual payroll of active members on \$1.054.140

valuation date

100% after five years Benefit vesting After 65th birthday Normal retirement date

Annual retirement benefit 1.50% times years of credited service times final

average salary

Average monthly compensation of 60 consecutive Final salary

months of the most recent 120 consecutive months

Required employee contributions Not required

NOTE 7: PENSION PLAN (continued)

The following table contains the number of active employees, inactive employees entitled to but not yet receiving benefits, and inactive employees or beneficiaries currently receiving benefits from the Plan based upon the most recent actuarial valuation date January 1, 2023:

Employees Covered by Benefit Terms

| Inactive employees or beneficiaries currently receiving benefits | - |
|--|----|
| Inactive employees entitled to but not yet receiving benefits | - |
| Active employees | 14 |
| Total Participant Count | 14 |

Benefits Provided

The following is a summary of the Plan benefit provisions:

- Eligibility Requirements:
 - Normal Retirement Age 65
 - Early Retirement Age 55 and after 20 years of credited service
 - o Vesting 100% after the completion of 15 years of service
- Retirement Benefit: Benefit equals 1.50% times credted years of services, times Final Average Salary (FAS)
- Disability Benefit: For services connected disability pension benefits, 50% benefit provided to a
 member of the service who is unable to perform gainful employment regardless of age who has
 at least 10 years of service, and for disability pension benefits, 30% benefit provided to a
 member who is unable to perform gainful employment regardless of age who has at least 10
 vears of service.
- Interest rate credited to member contributions: 5.25%

Basis of Accounting

The Plan's financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due, in accordance with Act 205, as amended. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

Method Used to Value Investments

Investments are reported at fair value. The plan's assets with PMRS are pooled for investment purposes and, therefore, do not represent specific identifiable investment securities. Disclosures required by Statement No. 3 of the Governmental Accounting Standards Board for aggregate PMRS investments are included in PMRS's separately issued CAFR.

NOTE 7: PENSION PLAN (continued)

Contributions

Act 205 requires that annual contributions be based upon the plan's Minimum Municipal Obligation (MMO). The MMO is based upon the plan's biennial actuarial valuation. In accordance with the plan's governing Ordinance, members are not required to contribute to the plan. The plan may also be eligible to receive an allocation of state aid from the General Municipal Pension System State Aid Program which must be used for pension funding. Any funding requirements established by the MMO in excess of employee contributions and state aid must be paid by the Authority in accordance with Act 205. For the year ended June 30, 2023 and 2022, the Authority was required to contribute \$109,500 and \$86,009, respectively.

Expenses

Investment expenses consist of investment management, custodial fees, and other significant investment related costs. Administrative expenses consist of consulting, actuarial, legal, and accounting services, along with any other significant plan related costs. The above expenses are allocated by PMRS to each employer account pro-rata based on their beginning fiduciary net position.

Net Pension Liability (Asset)

An actuarial valuation of the total pension liability is performed biennially. The total pension liability as of December 31, 2022 was determined as part of an actuarial valuation at January 1, 2023. The measurement date for the net pension liability is December 31, 2022, which is no earlier than the end of the prior fiscal year. The actuarial assumptions used in the January 1, 2023 valuation are as follows:

Actuarial Assumptions:

Inflation
Salary Increases
Investment rate of return
Mortality Rates

2.80% Age Related Scale 5.25% RP-2000 Mortality Tables

Long Term Expected Rate of Return on Investments

An experience study of PMRS was conducted in July 2017. The PMRS System's long-term expected rate of return on the Plan's investments was determined using a building-block method in which best-estimates of expected future real rates of return are developed for each major asset class, for the portfolio as a whole and at different levels of probability or confidence. Expected future real rates of return are based primarily on the 20 year historic nominal rates assuming that investment expenses will be offset by the additional return performance derived from active investment management. The nominal rates of return by asset class are adjusted by a constant rate of expected future annual inflation rate of 2.8% to produce the rates of return. Best-estimates for each major class included in the Plan's target asset allocation as of December 31, 2022 are listed in the table below:

NOTE 7: PENSION PLAN (continued)

| | | Long-Term Expected Real |
|--|--------|----------------------------|
| Asset Class | Target | Rate of Return |
| Domestic Equities Large Cap | 24.5% | 5.00% |
| Domestic Equities Small Cap | 8.0% | 5.70% |
| International Equities Developed Markets | 14.5% | 5.10% |
| International Equities Emerging Markets | 3.0% | 5.51% |
| Global Equities | 5.0% | 4.53% |
| Real estate | 10.0% | 4.92% |
| Core | 24.0% | 2.10% |
| Timber | 5.0% | 4.00% |
| Fixed Income | 5.0% | 5.50% |
| Cash | 1.0% | -0.30% |
| Total Net Blended Return | | 4.93% |

Discount Rate

The discount rate used to measure the total pension liability was 5.25%. The projection of cash flows used by PMRS for each municipal plan, used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that municipal contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the PMRS Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. PMRS is required by law to establish a discount rate equal to the regular interest rate. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. Based upon the Plan's current targeted investment allocation and the associated long-term expected investment returns for its asset classes, the Plan's long-term returns may be less than its actuarial discount rate assumption used to determine its pension liability. This may result in future increased total and net pension liability.

This schedule does not reflect changes in benefits, assumptions or reserve accounts after the Measurement Date. Except where noted below, the TPL as of December 31, 2022 was based on the data, actuarial methods and assumptions, and plan provisions. The assumptions used to determine the TPL as of the December 31, 2021 measurement date can be found in the January 1, 2022 PMRS actuarial valuation report or the prior year's GASB report.

NOTE 7: PENSION PLAN (continued)

Change in Net Pension Liability

The table below shows the changes in the Total Pension Liability (Asset), the Plan Fiduciary Net Position (i.e., fair value of Plan assets) during the Measurement Period, and the Net Pension Liability (Asset) as of the Measurement Date.

This report does not reflect changes in benefits, assumptions or reserve accounts after the Measurement Date. Except where noted below, the TPL as of December 31, 2022 was based on the date, actuarial methods and assumptions, and plan provisions described in Appendix A and Appendix E. The assumptions used to determine the TPL as of the December 31, 2021 measurement date can be found in the January 1, 2022 PMRS actuarial valuation report or the prior year's GASB report.

Change in Net Pension Liability

| | Increase (Decrease) | | | | | | | | | |
|-----------------------------------|---------------------|--|----|---------------------------------------|---|-----------|--|--|--|--|
| | | Total Pension ility (Asset) (a) | | Plan iduciary t Position (b) | Net Pension Liability (Asset) (a) - (b) | | | | | |

| Net changes | | 180,182 | | 78,866 | | 101,316 | | | | |
| Balances at December 31, 2022 | | 495,814 | \$ | 315,858 | \$ | 179,956 | | | | |

^{*}Reflects the net investment income (loss) of (\$61,901) and the income (loss) due to the difference between expected and actual asset values of \$22,303, which includes the impact from allocation of assets in support of the underlying retiree liabilities.

NOTE 7: PENSION PLAN (continued)

According to GASB Statements No. 67 and 68, PMRS is required to allocate/distribute all funds to the respective participating employers for financial reporting purposes to determine the respective employer "plan fiduciary net position."

PMRS has determined that net investment income or loss and administrative expenses will be allocated to the employer/municipality accounts pro-rata based on their beginning Fiduciary Net Position balance adjusted for cash flows throughout the year. The "Additional Administrative Expenses" are the expenses in excess of the "PMRS Administrative Expense" (i.e. \$20 per participant expense paid by each plan). The "PMRS Investment Income" is based upon the regular and excess interest used to credit accounts annually. The "Market Value Investment Income" reflects the investment income/(loss) during the year net of PMRS investment income and the income/(loss) due to the difference between expected and actual asset values, including the impact from allocation of assets in support of the underlying retiree liabilities.

Changes in the discount rate affect the measurement of the TPL. Lower discount rates produce a higher TPL and higher discount rates produce a lower TPL. Because the discount rate does not affect the measurement of assets, the percentage change in the Net Pension Liability (NPL) can be very significant for a relatively small change in the discount rate. The table below shows the sensitivity of the NPL to the discount rate with two additional measures, plus and minus one percent from the rate used for disclosure.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

| | 1% Decrease 4.25% | | Decrease Rate | | | | 1% Increase 6.25% | | |
|--|-------------------------|-------------------------------|---------------|-------------------------------|----|-------------------------------|-------------------------|--|--|
| Total Pension Liability Plan Fiduciary Net Position Net Pension Liability | \$ | 583,539 315,858 267,681 | \$ | 495,814 315,858 179,956 | \$ | 424,719 315,858 108,861 | | | |
| Plan Fiduciary Net Position as a Percentage of the Total Pension Liability | , | 54.13% | | 63.70% | | 74.37% | | | |

Schedule of Employer Reporting Amounts

The impact of investment gains or losses are recognized in the pension expense over a period of five years. The impact of experience gains or losses and assumption changes on the TPL are recognized in the pension expense over the average expected remaining service life of all active and inactive members of the Plan, as provided below. The impact of plan changes is recognized immediately.

There were experience gains or losses between the beginning of year and end of year liabilities because the liabilities are based upon two different actuarial valuation dates. Also, assumption changes as of the Measurement Date have been reflected.

NOTE 7: PENSION PLAN (continued)

Schedule of Deferred Inflows and Outflows

| | Infl | eferred lows of sources | Ou | eferred atflows of esources |
|--|------|-------------------------------|----|-----------------------------------|
| Differences between expected and actual experience Changes in assumptions Net difference between projected and actual earnings | \$ | 6,661 684 | \$ | 105,782 - |
| on pension plan investments Contributions subsequent to the measurement date | | - - | | 11,605 - |
| Total | \$ | 7,345 | \$ | 117,387 |

Amounts reported as deferred outflows and deferred inflows of resources will be recognized in pension expense as follows:

| Year Ending June 30: | Amount |
|----------------------|--------------|
| 2023 | \$ 13,167 |
| 2024 | 13,823 |
| 2025 | 16,564 |
| 2026 | 21,207 |
| 2027 | 13,289 |
| Thereafter | 31,992 |

The recognition period for experience and assumptions change gains (losses) is 9 years.

The annual pension expense recognized can be calculated two different ways. First, it is the change in the amounts reported on for the Employer's Statement of Net Position that relate to the plan and are not attributable to employer contributions. That is, it is the change in Net Pension Liability plus the changes in deferred outflows and deferred inflows plus employer contributions.

Alternatively, annual pension expense can be calculated by its individual components. While GASB does not require or suggest the organization of the individual components shown in the table below, we believe it helps to understand the level and volatility of pension expense as outlined below.

NOTE 7: PENSION PLAN (continued)

Calculation of Pension Expense

| | Measurement Date as of | | | | | |
|---|------------------------|--|----|--------------------------------------|--|--|
| | 12 | /31/2022 | 12 | /31/2021 | | |

| Total | | 13,165 | | (1,089) | | |
| Pension Expense | \$ | 121,789 | \$ | 99,300 | | |

NOTE 8: SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENT

The Authority entered into a SBITA agreement during the year ended June 30, 2023 for a software system related to billing and accounts receivable services. The billing software system, Vadar, cost \$43,123 for the design and implementation for the Authority. Below are the significant terms of the Vadar agreement. These costs are included in the software expenses in the Statements of Revenues, Expenses, and Changes in Net Position.

Significant terms of SBITA

- **Term:** The subscription terms range from three to six years.
- Payments: Payments are monthly and range from \$982 to \$1,080.

The subscription-based IT arrangement provides the Authority with rights to use the software and services for the term specified in the agreement. At the conclusion of the term, the Authority will not own the software or related assets, and the agreement may be renewed or renegotiated.

The following summarized the line items in the Statements of Net Position, which include amounts for the SBITA as of June 30, 2023:

| \$ | 63,871 |
|---------|---------|
| | (2,842) |
| \$ | 61,029 |
| | |
| \$ | 11,793 |
| | |
| | 48,792 |
| Φ | CO |
| <u></u> | 60,585 |
| | |
| \$ | 47,054 |
| | \$ \$ |

The following summarized the line item in the Statements of Revenues, Expenses, and Changes in Net Position, which includes the components of SBITA expense for the year ended June 30, 2023:

Software expenses \$ 51,180

The following summarizes cash flow information related to the SBITA for the year ended June 30, 2023:

Cash paid for amounts included in the measurement of SBITA liability:

Cash flows for arrangement \$ 45,965

NOTE 8: SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS (continued)

The maturities of the SBITA liability as of June 30, 2023 are as follows:

| For the Years Ending June 30, | | |
|----------------------------------|---|--------------|
| | | |
| 2024 | | \$ 11,793 |
| 2025 | | 11,793 |
| 2026 | | 11,793 |
| 2027 | | 11,793 |
| 2028 | | 11,793 |
| Thereafter | | 7,862 |
| Less: Interest | | (6,242) |
| Present value of SBITA liability | - | \$ 60,585 |

NOTE 9: REFUNDS OF PRIOR YEAR EXPENDITURES

During the year ended June 30, 2023, the Authority received a refund of prior year expenditures in the amount of \$120,000. The refund represents incentive fees previously paid to Corvias Infrastructure Solutions, LLC, and subsequently unallowed by the Pennvest financing agreements.

During the year ended June 30, 2022, the Authority received a refund of prior year expenditures in the amount of \$1,506,140 as a result of negotiations with DELCORA. It was determined that the Authority was maintaining certain DELCORA infrastructure.

Both amounts are included in nonoperating revenues on the Statements of Revenues, Expenses and Changes in Net Position.

NOTE 10: SUBSEQUENT EVENTS

Subsequent events have been evaluated by management through February 13, 2025, which is the date the financial statements were available to be issued.

Capital Spending, Improvement Projects and Financing

After June 30, 2023, additional funds in the amount of \$552,411 were borrowed on Loan #72818 Tranche #5.

As of the end of January 2025, five projects have approved funding with loans from Pennvest totaling \$33,084,940. From available funding, \$29,267,884 has been borrowed and invested in improvements of the infrastructure and supporting assets.

The Authority continues planning projects to enhance its infrastructure. A sixth project began after June 30, 2023. Funding in the amount of approximately \$9,963,000 has been approved by Pennvest. The funding will come from a grant, which does not have to be repaid.

NOTE 10: SUBSEQUENT EVENTS (continued)

During the Fall of 2023, the Authority suffered cash flow issues and requested a temporary deferral of principal loan payments. Pennvest approved the request and suspended principal payments during the months of October, November and December 2023 for all five loans. Interest payments were not suspended.

City of Chester Receiver's Recovery Plan

During 2024, a Motion to Require Production of Documents Pursuant to Rule 2004 was filed against the Authority by the City of Chester, in City's bankruptcy proceedings. No monetary damages were requested, and none are anticipated at this time. The City is seeking to dissolve the Authority and monetize it assets in order to partially fund the City's reorganization plan. The litigation in Bankruptcy Court is ongoing. To date, the Authority has produced and submitted approximately 2,000 documents pursuant to the City's requests.

STORMWATER AUTHORITY OF THE CITY OF CHESTER STATEMENT OF REVENUES AND EXPENSES - ACTUAL VS. BUDGET AND CHANGE IN NET POSITION YEAR ENDED JUNE 30, 2023

| | Actual | Budget | Variance Favorable (Unfavorable) |
|---|-------------------|------------------|--|

STORMWATER AUTHORITY OF THE CITY OF CHESTER SCHEDULE OF EMPLOYER CONTRIBUTIONS GASB 68 MEASUREMENT DATE OF DECEMBER 31, 2022

An Actuarially Determined Contribution is a contribution amount determined in accordance with Actuarial Standards of Practice. The Actuarially Determined Contribution provided is based upon the Minimum Municipal Obligation as defined in ACT 205 which conforms to these standards.

Last 10 Measurement Years (if available)

| add to Modediction Todio (ii dvallable) | 2022 | 2021 | 2020 | 2019 | 2018 | 2017 | 2016 |
|---|--------------|-------------|------------|------------|------|------|----------|
| Actuarially Determined Contribution | \$ 103,873 | \$ 68,145 | \$ 61,346 | \$ 44,524 | \$ - | \$ - | \$ - |

| Covered Employee Payroll ** | \$ 1,054,140 | \$ 974,889 | \$ 687,789 | \$ 476,173 | \$ - | \$ - | \$ - |
| Contributions as a Percentage of Covered Employee Payroll | 9.86% | 8.09% | 8.83% | 9.41% | N/A | N/A | N/A |

^{*} Information provided by PMRS and not reconciled to determine the cause of any deviation from the Actuarially Determined Contribution (if applicable).

Notes to Schedules:

Valuation Date: Actuarially determined contribution rates are calculated as of January 1 for the odd valuation year at least two years prior to the end of the fiscal year in which the contributions are reported. Therefore, the Actuarially Determined Contribution for calendar year 2022 is based upon the January 1, 2019 actuarial valuation.

A summary of the key assumptions and methods used to determine the 2022 contribution rates:

Actuarial Cost Method Entry Age

Amortization Period Level dollar based upon the amortization period in Act 205

Asset Valuation Method Based upon the municipal reserves

Discount Rate 5.25% Inflation 2.80%

Salary Increases Age related scale with merit and inflation component

COLA increases 2.8%, for those eligible for a COLA

Pre-Retirement Mortality Males: RP 2000 Non-Annuitant Male table projected 15 years with Scale AA

Females: RP 2000 Non-Annuitant Female table projected 15 years with Scale AA, setback 5 years

Post-Retirement Mortality Males: RP 2000 Annuitant Male table projected 5 years with Scale AA

Females: RP 2000 Annuitant Female table projected 10 years with Scale AA

For a complete listing of all assumptions and methods, please refer to the PMRS January 1, 2019 actuarial valuation report.

Plan Changes: Please refer to Appendix A for current year plan changes and to the Plan's Act 205 filings and/or GASB 68 reports for prior year plan changes.

^{**} Beginning in 2015, amount is actual payroll. In 2014, amount is expected payroll based on the most recent actuarial valuation. These amounts may not match the MMO payroll.
